Electric campus mobility for India's universities

PRE-SEED · 2026

Did you know...

Students in India walk 15–40 MINUTES between classes?

Every single day. Across campuses spanning 100–600 acres.

More than 50% of the households in India owns a motorcycle or scooter?

India's top private universities are the size of small towns — and students have no way to get around them.

That means transportation is a pain in India, but more so across Large University campuses!

Students arrive late and fatigued

Long walks to lectures every single day drain energy and punctuality.

Universities face chaos

Thousands of private bikes cause congestion, safety incidents, and an emissions crisis on campus.

No viable electric solution exists

No purpose-built, managed electric mobility solution exists for Indian campuses today.

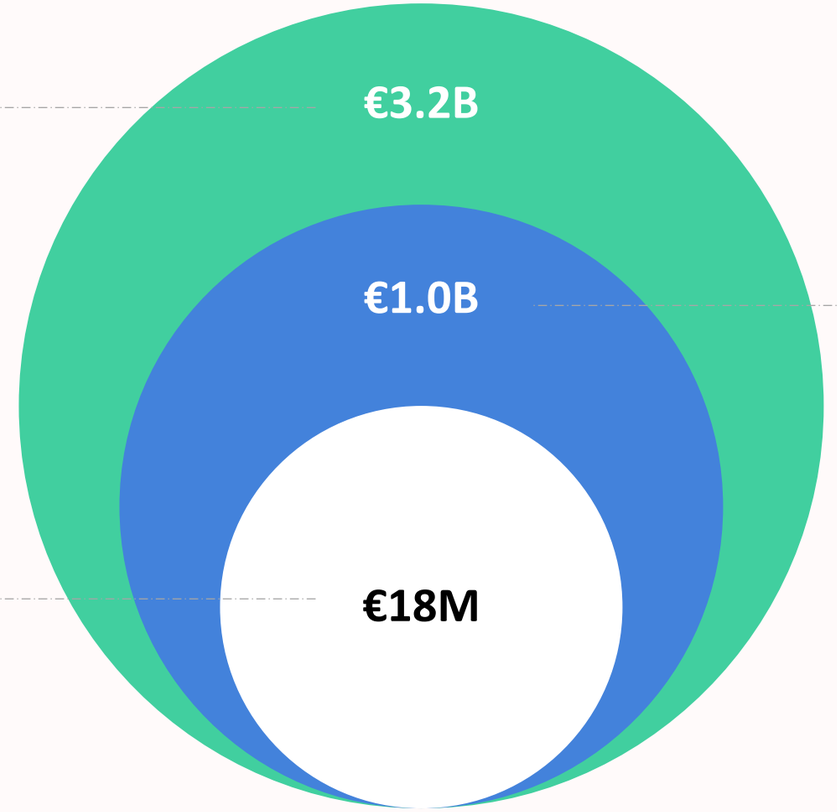
MARKET OPPORTUNITY

elmo

TAM

40M students represent the entire potential market across India
1,400+ universities and **tech parks**
₹600/month per student on autos, rickshaws and private transport



SAM

24M students are the portions of TAM at large private residential universities that we realistically can target with our product.
500+ private universities and tech parks — fast decision-makers, no government procurement
€1B on-campus mobility spend — ₹300/month per student, the portion Elmo can realistically capture

SOM

2M students are based on 220 campuses at an avg of ~10,000 students per campus. Our 5 year target is **220 campuses** and tech parks.
€18M ARR by Year 5

5-year ARR target: €18M across 220 campuses and tech parks. Pre-seed already has 3 sites signed or in advanced discussions before the round closes.

elmo

TRACTION — EVIDENCE

Universities see Elmo as a trusted partner – that helps them solve real world problems.

SIGNED

Mahindra University

EXCLUSIVE LICENSED OPERATOR

150-200 SCOOTERS. Planned launch Q2.

150 acres, ~8000 Students

CONTRACT REVIEW

Lovely Professional University

1 OF 2 LICENSED OPERATORS

400-600 SCOOTERS. Planned launch Q4.

600+ acres, ~30,000 Students

SITE VISIT PLANNED

Dayananda Sagar University

EXCLUSIVE LICENSED OPERATOR

150-200 SCOOTERS. Planned launch Q3.

160 acres, ~17,000 Students

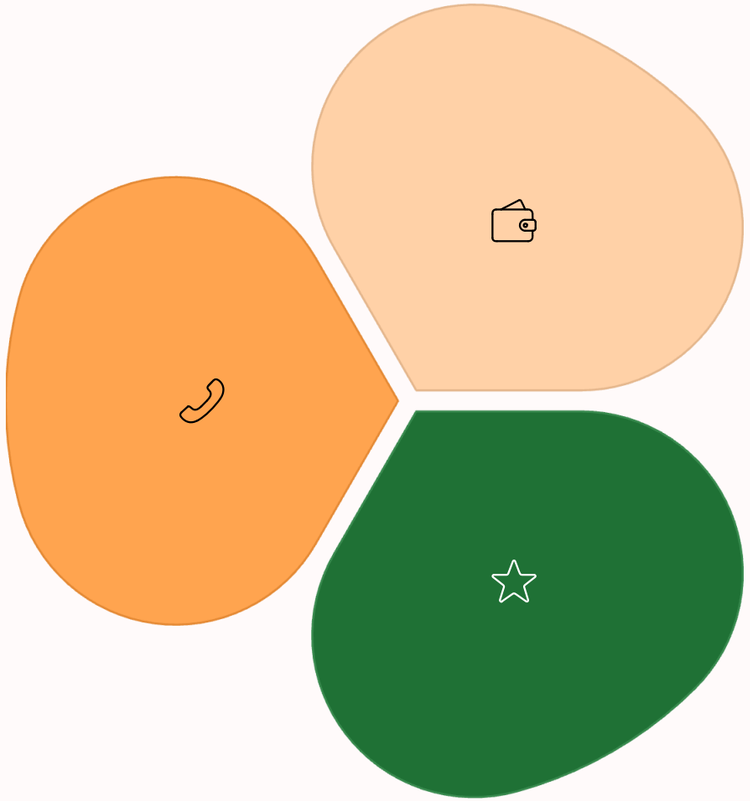
3 sites signed or in advanced discussions. 5 additional universities in active pipeline. Elmo solves a problem campuses already want fixed: congestion, emissions and student experience. That makes this a pull business, not a push business.

BUSINESS MODEL

LAUNCH MODEL

Pay-Per-Ride

₹6/min + ₹10 unlock. Students pay as they go. No cost to the university.



LAUNCH MODEL

Ride Pass

Weekly and monthly prepaid passes. Drives loyalty and repeat usage.

PREFERRED

Campus License

University pays a fixed monthly fee. Students ride free or subsidised.

Campus License is the end state — recurring, contracted, predictable.

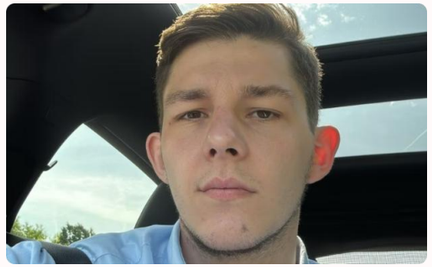
THE TEAM

CO-FOUNDER & CEO

Amrit Singh

Commercial · Product · Strategy

- Micromobility operations with Voi, Lime & Uber (UK & Sweden)
- Strong product and startup background
- Led the Mahindra University partnership



CO-FOUNDER & CTO

Jonas Behli

Technology · Infrastructure · Product

- Founded a micromobility company from scratch (Germany)
- Built proprietary app & backend infrastructure
- Deep hands-on EV tech experience

CO-FOUNDER & COO

Kiran Musunuru

India Operations · Logistics · Scale

- Extensive India-wide execution experience
- Multi-sector operations leadership
- Drives India deployment & campus relationships

CO-FOUNDER · BOARD · ADVISOR

Virpal Singh

Network · Fundraising · Mentorship

- Accomplished founder and CEO of DI Gasell company (+€40 million) & active investor
- Deep network in Indian business ecosystem
- Mentor and board-level strategic advisor

India execution + Nordic capital access + deep micromobility ops experience — **a team built specifically for this opportunity.**
